

FORM FIT INSTALLATION INSTRUCTIONS

4 Pieces - Side Window Deflectors

NISSAN ALTIMA 2007 -

SD 13A 07-4

HARDWARE KIT

3M Double-sided Body Moulding Tape
- already applied to the deflector
1 – 3M Adhesive Promoter

TOOLS REQUIRED

None

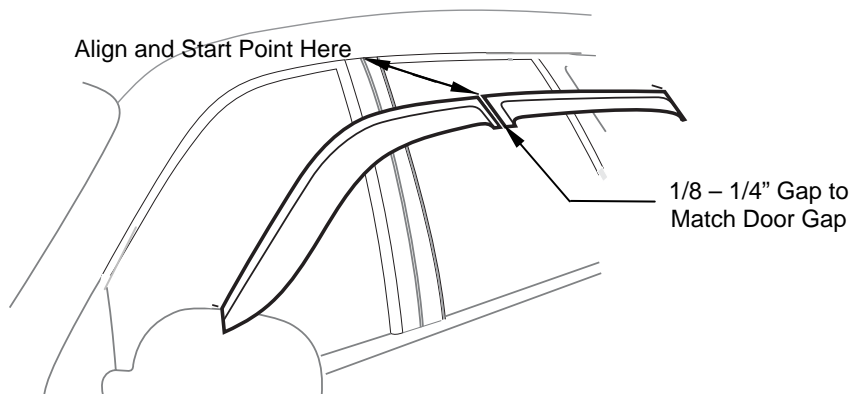

Attention: This product uses a 3M adhesive product that requires installation and curing temperatures of at least 20°C/ 70°F for 24 hours to develop maximum adhesion to the surface. **Failure to install this product at the proper temperature or allow adequate curing time before use is not covered under warranty.**

1. The deflectors mount to the window frames of the doors. Make sure that those areas are clean and dry.
2. **Start** with the Passenger's side front door of the vehicle.
3. To understand how the deflector will fit, place the front Passenger's door deflector up to the vehicle. Align the start point of the deflector with the start point of the door as shown below. The top edge of the deflector runs flush along the top edge of the window frame.
4. Prime the contact area on the window frame with the adhesive promoter. Allow to dry. *Follow the instructions on the promoter for use.*
5. Beginning at the start point of front door deflector, peel only the first 30-40 cm (12-15 inches) of the protective backing from the tape on the flange of the deflector. Press the deflector into place as determined above. Work forward, removing the protective backing from the tape and pressing the part into place.
6. Once the deflector is in place press down **hard** along the entire flange area to make sure that the tape is fully adhered to the vehicle.
7. Repeat steps 3-6 for the remaining deflectors. When installing the rear door deflectors, begin at the start point of the deflector and work back. **Be sure** to allow a gap between the front and rear deflectors similar to the gap between the doors.

CARE INSTRUCTIONS

Clean the deflectors with a mild soap and water solution or plastic cleaner only. Do not use chemicals or solvents. Periodically check to make sure the deflectors are secure. Avoid using automatic car washes.
